

*These are the names of the men from the parishes of Bolton and Saltoun  
who fell in two World Wars.*

(Please note that the official record in Saltoun relating to the First World War gives only a single initial and a surname. The Kirk Session feels this to be rather minimalist, and has researched all the parish records and numerous Internet sources in search of fuller Christian names with some, but not total, success to date. If anyone can give the fore-names of the remaining men, the Kirk Session would be delighted to add these to the record.)
